

Dear Motorcyclist:

We have received your request to become a Connecticut Rider Education Program Instructor. Attached is an application to attend our Instructor Preparation Workshop. Complete this application and return it to our office.

We strongly suggest you attend or monitor our Basic Rider Course (BRC) before you participate in our Instructor Preparation Workshop. If you are planning to attend a BRC in the near future indicate this on your application.

After your application is approved, the Site Manager will contact you to arrange an interview and an on-cycle skill test using our training motorcycles (150 - 300cc). Upon successful completion of the on-cycle skills test, you will be accepted into a CONREP Instructor Preparation Workshop (IPW). This workshop consists of 90 hours of in-depth training.

The purpose of the IPW is to train a group of individuals to organize, administer and teach the Basic Rider Course. The Instructor Preparation Workshop schedule will depend upon a number of variables. You will receive information regarding dates sometime after your interview.

When you successfully complete the Instructor Preparation Workshop, you will receive a national certification from the Motorcycle Safety Foundation as well as a statewide approval from the Connecticut Rider Education Program. At this point, you may apply to teach at any Connecticut location. While we cannot guarantee employment, we can say that most training locations are looking for additional instructors. Each instructor in our program is paid for the classes he or she teaches, but maintaining ones approval requires lots of dedication and hard work.

Attached is a contact list of local Site Managers who are responsible for hiring instructor. **All applicants must establish communication with a local manager** as soon as possible to discuss the position.

Please forward this application to  
DOT-Highway Safety  
PO BOX 317546, Newington CT 06131-7546
